THE SENIOR EMERGENCY ALERT SYSTEM

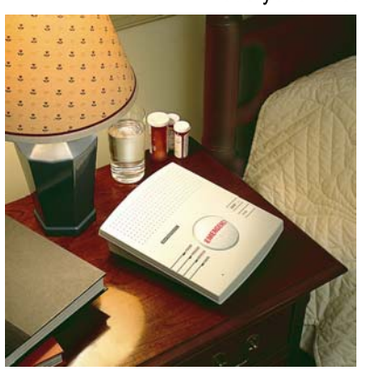
BECAUSE HOME IS WHERE YOU BELONG...

What is the Senior Emergency Alert System?

The Senior Emergency Alert System (SEAS) is a personal emergency response system that provides 24-hour access to medical and social services at the press of a button. By offering prompt access to medical care, SEAS promotes an independent lifestyle for seniors and people with disabilities or other serous medical conditions.

How does it work?

After subscribing to the service, you will receive a SEAS unit that attaches to your telephone line and a small button to wear around your neck. This discrete, waterproof button is worn at all times- even in the bath.



In case of medical emergencies, intruders, falls or other serious problems, simply push the button to be immediately connected to our call center, staffed by local paramedics. They will dispatch assistance for you and stay in contact until help arrives. Open 24 hours a day, our call center is directly connected to police, fire departments, paramedics, ambulance services, and will even connect you to your own family members.

How do I subscribe?

If you live in San Diego County and are age 55 or older or disabled, call (858) 483-5100 for more information. You may also download an application from our website at www.livewellsandiego.org. Once we receive your completed form from either the mail, or fax, we will call to verify your information and discuss if you would like a trained SEAS professional to install our service.

What is the cost?

SEAS does not require a signed contract for service but does charge a monthly monitoring fee. A sliding scale fee ensures the SEAS program is available to everyone who needs it, regardless of their financial status. A one time installation fee of $50 includes all service calls needed to maintain the equipment. Call our offices today to see how easy it is to stay secure and connected to trained paramedics in your own home.

SEAS Program Benefits

- Provides you with a personal emergency response system giving immediate 24 hour access to emergency services.
- Provides you and your family peace of mind knowing that someone will always be there to help.
- Trained, San Diego paramedics answer calls and dispatch ambulance, police, fire and other services as needed.
- Fee is on a sliding scale based on subscriber income. Cost is never more than a cup of coffee per day. Support assistance is funded by San Diego area governments and foundations.
- SEAS is managed locally in San Diego with direct access to all community services and agencies.
- For more than 25 years, this non-profit program has been funded by San Diegans for San Diegans.

PHYSICIAN (name and address):			PHONE:

An Emergency Responder should be a neighbor or family member that are no more than 10 minuets away and can physically respond in case of an emergency. It is important to confirm your emergency responders telephone numbers and to update their information with the SEAS office when changes occur. Please make sure your emergency responder is aware they are on this application.
